## VARIANCE REQUIREMENTS

### City of Knoxville Zoning Ordinance Article 7, Section 2

The City of Knoxville Board of Zoning Appeals shall have the power and authority to grant variances from terms of this ordinance according to the procedure and under the restrictions set out in this section.

The purpose of the variance is to modify the strict application of the specific requirements of this ordinance in the case of exceptionally irregular, narrow, shallow or steep lots, or other exceptional physical conditions, whereby such strict application would result in practical difficulty or unnecessary hardship which would deprive an owner of the reasonable use of his land. The variance shall be used only where necessary to overcome some obstacle which is preventing an owner from using his property as the zoning ordinance intended.

## DESCRIPTION OF APPEAL

Describe your project and why you need variances.

New construction single family home. Recode Knoxville removed ordinance that allows lots before 1947 to be recognized as lots of record. Lot width is 40' thus does not meet 50' lot requirement of new zoning. Request variance for 40' lot width so we can build new construction single family home on property.

Describe hardship conditions that apply to this variance.

Existing 40' lot doesn't meet new zoning requirements of 50' wide lots. Small lots of record ordinance for lots before 1947 was eliminated during Recode Knoxville.

## APPLICANT AUTHORIZATION

I hereby certify that I am the authorized applicant, representing ALL property owners involved in this request and that all owners have been notified of this request in writing.
